Subject: United States Department of Justice antitrust lawsuit against Microsoft Corporat

I support Iowa's Attorney General Tom Miller's work on the Microsoft antitrust case. Along with the majority of voters in our state, I have and will continue to retain his counsel in acting to protect the best interests of consumers of Iowa. Promoting a competitive environment among companies producing software will be of long-term benefit to everyone, and rejecting a settlement agreement that is premature is the right thing to do. Justice will not be the result of a hasty decision in this incredibly complex and high-stakes arena. If the proposed agreement is fair and is in fact in the best solution to the dangers posed by a potentially unfair competition situation, it will stand the test of time and the detailed analysis of Mr. Miller and his associates...which should not be curtailed until their case has been fully developed and considered.
